

Doc# 402334419

Facility ID 439130

Rem# 15065

COA - Within 30-days of approval of this NFA provide via eForm 4, the dates and sequence of events of the removal of the tank battery and associated equipment. At that time, Facility ID: 439130 shall be closed.

Timeline of events:

Hydrovac trucks were brought in to clean the tanks prior to 11/5/2018.

On 11/5/2018 the production tanks were removed from the secondary containment and 2 tanks were transferred to the West Rifle Yard for future use.

On 11/9/2018 tank ID 265489 was transferred from the Valley Transfer facility to another location as a tank replacement.

On 1/18/2019 the remainder of the production tanks were transferred to the West Rifle Yard for future use.

On 12/26/2018, 12/31/18, and 1/2/2019 the secondary containment and all associated piping were removed from service and taken the West Rifle Yard for future use. Or to Garfield county landfill for disposal.

The Operator did not address potential impacts at the former loadout area. See COGCC comments on Initial eForm 27 (doc #402302255).

The site was accessed at the time of sampling, no staining was noted at the tank load out area or in the vicinity of the Valley Transfer Facility Tank Battery.
