<p><a href="#">W H Coltharp 3 Day 1 05-103-40163</a></p> <p>Due to the concentration of wells in this area, it was initially thought this well could have been the W H Coltharp 2. It was confirmed with OWP Engineer Shannon Chollett and field inspector Rick Moran that this well is the W H Coltharp 3.</p> <p>A hard obstruction was identified approximately 3 feet below GL in the casing. Approximately 1 ft. of 10 3/4" casing was exposed above GL. Contractor dug out below GL to expose casing. Casing was cut approximately 6 ft. below GL. Competent cement was present where the casing was cut. Casing was capped with a steel plate with the following details: Coltharp 3 05-103-40163 NWNE21N102W6</p> <p>After the well was capped, the area around the casing was filled back in with dirt and marked with a orange post for a GPS reading.</p>	katza	03/26/2020
