**Flowline Description and Testing**

Type of Fluid Transferred: Produced Water Pipe Material: Lined steel Max Outer Diameter:(Inches) 6.000  
 Bedding Material: Native Materials Date Construction Completed: 09/15/2007  
 Maximum Anticipated Operating Pressure (PSI): 522 Testing PSI: 522  
 Test Date: 10/19/2018

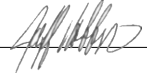

**OPERATOR COMMENTS AND SUBMITTAL**

Comments Laramie Energy utilizes the Trimble GNSS R1 receiver which provides professional grade positioning information. All as-built wellhead data was collected while using sub-meter corrections with the Satellite-Based Augmentation System (SBAS) which provides sub-meter accuracy in the field. The figure in the PDOP field is not the PDOP reading; it is the foot-accuracy reading.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
