COGCC INSPECTION SUMMARY:

FIR Document Number: 693901111

Inspection Date: 11/12/2019

FIR Submit Date: 11/21/2019

FIR Status: _____

Inspected Operator Information:

Company Name: LOGOS OPERATING LLC

Company Number: 10679

Address: 2010 AFTON PLACE

City: FARMINGTON State: NM Zip: 87415

LOCATION - Location ID: 325365

Location Name: DOCAR GAS UNIT-N33N8W Number: 26NENE County: LA PLATA

Qtrqtr: NENE Sec: 26 Twp: 33N Range: 8W Meridian: N

Latitude: 37.080970 Longitude: -107.681070

FACILITY - API Number: 05-067- -00 Facility ID: 214645

Facility Name: DOCAR GAS UNIT Number: 2-A

Qtrqtr: NENE Sec: 26 Twp: 33N Range: 8W Meridian: N

Latitude: 37.080970 Longitude: -107.681070

CORRECTIVE ACTIONS:

1 ☒ CA# 134787

Corrective Action: Revegetation is needed in portions of the project area with bare and sparse vegetative cover, especially on the well pad cut and fill slopes. It appears that livestock exclusion is needed to ensure successful vegetative establishment.

Date: 04/01/2020

Response: CA COMPLETED

Date of Completion: 12/23/2019

The project area with bare and sparse vegetative cover was heavily seeded on December 23, 2019, especially on the well pad cut and fill slopes. We will monitor the vegetative establishment during the 2020 growing season and

Operator Comment: make changes as needed to establish good vegetative cover.

COGCC Decision: Approved pending re-inspection

COGCC Representative:

2 ☒ CA# 134788

Corrective Action: Stormwater controls (ie BMPs) and erosion controls (ie mulching, blanketing) need to be installed to stabilize erosion within the project area. These controls need to be selected, sized, installed, and maintained in accordance with good engineering practices and until location is stabilized with desirable perennial vegetation.

Date: 12/06/2019

Response: CA COMPLETED

Date of Completion: 12/23/2019

Operator Comment: Stormwater controls and erosion controls (ie surface roughening) were installed to stabilize erosion within the project area on December 23, 2019. These controls were selected and installed with good engineering practices and will be monitored until the location is stabilized with desirable perennial vegetation. This work was done while the ground was muddy due to an extremely short corrective action date.

COGCC Decision: Approved pending re-inspection

COGCC Representative:

OPERATOR COMMENT AND SUBMITTAL

Comment:

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
