W

Latitude: 40.638930 Longitude: -104.276540

CORRECTIVE ACTIONS:

1 ☒ CA# 135872

Corrective Action:

Date: 05/15/2020

Perform reclamation in accordance to Rule 1003. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until the location meets Rule 1003 standards, including stormwater and weed management.

Interim reclamation activities shall be complete no later than 5/15/2020 or sooner, if possible, depending on environmental conditions.

Response: CA COMPLETED

Date of Completion: 03/17/2020

Operator Comment: Location has been mowed with commercial mower and extensively sprayed - invasive weeds, particularly Kochia, have been sprayed and mowed. Pictures attached.

COGCC Decision: Approved pending re-inspection

COGCC Representative: Note: Based on the attached Photo #2, it does not appear portions of the northern interim reclamation area have been managed.  
  
Approved pending re-inspection of this FIR resolution acknowledges the document was received. It is not an acknowledgement that the corrective action has been passed. A field inspection will be conducted at a future date to evaluate compliance with COGCC standards.

#### OPERATOR COMMENT AND SUBMITTAL

Comment: Submitting on behalf of Phoenix Resources via Mallard login - this well was acquired in May'19 by Phoenix Resources LLC, Form 10 has been pending approval since then.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.

Print Name: Taylor Heffner
