COMMENTS:

Bonanza Creek respectfully requests continued TA status. The Latham 33-1 was plugged back with CIBP @ 6260' with 2 sacks of cement on 03/02/2020. Form 5A to report TA status of Nio/Codell was submitted 03/26/2020 (Doc # 402329656). The well was SI and plugged back due to offset HZ frac of Bonanza Creek's State North Platte F-36 and State North Platte T-36 Pads. The well is closed to the atmosphere via valve locked out and tagged out at the master valve, and the a "Temporary SI for HZ prep" sign is attached to the master valve. Well pressure tested at time of CIBP setting; pressure tested to 1000 psi, pressure held, test was good. This well will remain TA'd until and after frac completions on both pads, previously mentioned, have been completed. Bonanza Creek has this well on their Projected P&A budget planning schedule for the next years to come, as budgets allow. If not PA'd by that time, an annual TA sundry notice will be submitted in 1st Quarter 2021 to update the COGCC on the plans of this well.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____

COMMENTS:

<u>Best Management Practices</u>	
<u>No BMP/COA Type</u>	<u>Description</u>

Operator Comments:

This form is being submitted as the Initial 6 month Form 4 Continued TA Status Request.
Operations summary is attached to this form for informal pressure test verification.
Formal MIT test will be ran at the 2 year mark from the last date of production.
Bonanza Creek has notified field personnel to run pressure tests for 15 minutes on future TA wells.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.

Title: Regulatory Analyst Email: regulatory@bonanzacrk.com Date: 3/26/2020

Based on the information provided herein, this Sundry Notice (Form 4) complies with COGCC Rules and applicable orders and is hereby approved.

COGCC Approved: McFarland, Nick Date: 4/7/2020

CONDITIONS OF APPROVAL, IF ANY:

<u>COA Type</u>	<u>Description</u>
	1) This approval is good for one year and a new application must be made before 03/26/2020. Updates for the planned utilization of the well should be included with the application. 2) The Form 7, Operators Report of Monthly Operations, must correctly reflect the well status and dates reported on the Form 4, Sundry Notice-Request for Continued Temporarily Abandoned Status.
