General Comment:

This is an Abandoned Location Inspection for Five Wells, listed in Related Facilities, above. APDs were First Approved in 2007; Permits Abandoned in 2011 by Williams. It does not appear that these AL Wells were drilled on Location with Six Producing Wells; therefore these are Well Releases on an Active Location.

These Wells were passed for Final Reclamation in 2015; however they were inadvertently Checked in Field Inspection in 2018 giving them an Active Priority Status. This Inspection clears the mistaken Active Priority Status.
