COGCC Decision: _____

COGCC
Representative: _____

2 CA# 135936

Corrective Action: Conduct interim reclamation according to COGCC 1003 reclamation rules. This includes recontouring, decompaction, and revegetation of areas not needed for production operations. Reclamation needs to be conducted by May 1, 2020. Livestock exclusion and mulching will likely be needed for successful revegetation. Additional detail provided in attached photos.

Date: 06/30/2018

Weeds need to be controlled with subsequent monitoring and treatment as needed. Corrective action is back-dated as subsequent monitoring and treatment is not sufficiently conducted.

Response: CA COMPLETED

Date of Completion: 03/18/2020

Operator Comment: A contractor working For LOGOS Operating performed interim reclamation work to comply with the COGCC 1003 reclamation rules on March 18, 2020. This included installing storm water BMP's, recontouring, decompacting, and revegetating the areas not needed for production operations. The location was mulched to assist with successful revegetation. Additional detail provided in attached photos. Consistent with LOGOS Operating's policy noxious weeds will continue to be sprayed annually and more often as needed. We will work with our weed spraying vendor to ensure that the areas in question are adequately sprayed and monitored in the spring of 2020 and going forward.
