General Comment:

On 4/09/2020, Reclamation Specialist Trujillo conducted an interim reclamation and stormwater inspection at Caerus Piceance's Chevron-Marathon 41A-22D Location in Garfield County, Colorado.

It was observed in this inspection that the "As drilled" coordinates for the 41A-22D well is incorrect. Unused equipment was also observed stored on the Location.

The following alleged compliance issues were observed during this inspection:

308A.b.(2)F: "As Drilled" coordinates

603.f: Storage of unused equipment

Refer to the "Location" and "Reclamation" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

---------------------	------------	-----------------------	------------	------------------

Producing Well

Comment: PR Well.

The "as drilled" Coordinates provided in Form 5 document #2034180 (39.51516/-108.19552) indicates the 41A-22D well was drilled on the west corner of the pad, ~200 ft west of the 14D-14D well. See photo #8 in the attached photo document.

It was observed in this inspection that both of the active wells (14D-14D, 41A-22D) on the Location have been drilled adjacent to one another; Submitted "As drilled" coordinates for the well appear incorrect.

Corrective Action: Submit correct "as drilled" latitude and longitude coordinates for the well.
