FLOWLINE DESCRIPTION AND TESTING

Date Construction Completed: 03/17/2007

Pipe Material: Carbon Steel

Bedding Material:

Max outer Diameter (inches): 12.000

Type of Fluid Transferred:

Max Anticipated Operating PSI: 300

Testing Pressure:

Test Date:

Description of Corrosion Protection:

This field was built and in operation prior to Ursa ownership, Ursa will inform the COGCC with updates as more information and records may become available.

Description of Integrity Management Program:

This field was built and in operation prior to Ursa ownership, Ursa will inform the COGCC with updates as more information and records may become available.

Description of the construction method used for public by-ways, road crossings, sensitive wildlife habitats, sensitive areas, and natural and manmade watercourses (i.e., open trench, bored and cased, or bored only), if applicable.

This field was constructed prior to Ursa ownership, Ursa will inform the COGCC of any updates and records as the information becomes available.

FLOWLINE SYSTEM REALIGNMENT

Date: 04/16/2020

Description of Realignment:

The segments identified below were place out of service in October of 2019 and were returned to service on April 16, 2020. A pressure test was performed prior to returning to service, those results are attached. These line segments were taken out of service during the winter months, and were inaccessible during that period due to road conditions and freeze issues. The diameter of the segments of this line is 2 3/8"OD
BR 22-2-98 GOVT298222; BR 26-2-98 GOVEQ261; BR 27-2-98 FED298275; BR 26-2-98 GOVEQ298262; BR 27-2-98 GOV298273

OPERATOR COMMENTS AND SUBMITTAL

Comments The segments identified below were place out of service in October of 2019 and were returned to service on April 16, 2020. A pressure test was performed prior to returning to service, those results are attached. These line segments were taken out of service during the winter months, and were inaccessible during that period due to road conditions and freeze issues. The diameter of the segments of this line is 2 3/8"OD BR 22-2-98 GOVT298222; BR 26-2-98 GOVEQ261; BR 27-2-98 FED298275; BR 26-2-98 GOVEQ298262; BR 27-2-98 GOV298273. The GIS information for these line segments are correct on the COGCC website.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
