Operator Comments:

All casing and cement information and formation tops are measured from KB. Per the approved Form 2 APD for the subject well, one gamma ray and one resistivity log was required for this multi-well pad, which was run on this well (Triple Combination attached).

The well logs uploaded contain both the CBL and the PNL data.
GPS data was taken on Conductor Casing.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
