438226	SPILL OR RELEASE	AC	07/22/2014		-	SPILL/RELEASE POINT	EI

General Comment:

spill 438226 reported in 2014 as occurring during flowback from 123-37760 well.

No data or justification for closure has been provided to COGCC and no request for closure of spill has been received

Typical requirement for providing closure documentation is now 45 days from discovery of spill or submission of site investigation and remediation plan by same deadline with spill closure based on approved site investigation and remediation plan.

Battery is not co-located with wells and only well location inspected in this report
