General Comment:

On 4/28/2020, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at BAYSWATER EXPLORATION & PRODUCTION LLC - 10261's EQUITY CALUP2-21 Location in Rio Blanco County, Colorado

This inspection is to document compliance for the following corrective actions:
1004.e: Control Noxious weeds

Refer to the "Reclamation" section of this inspection report for additional details.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

COGCC Comments

Comment	User	Date
<p>RECLAMATION COMMENTS</p> <p>Previous inspections documented that snow cover on the Location prevented an accurate assessment of the reclamation, or if noxious weed management has been conducted.</p> <p>It was observed in this inspection that reclamation appears to be in process; Rock road base material remains evident along access road; rock material will likely hinder uniform vegetative establishment pursuant to Rule 1004.a, and it is advised that the material is removed as it does not appear to be native soil reflective of the reference. If it is determined in a future inspection that the material is hindering reclamation, a corrective action will be applied for its removal.</p> <p>It was also observed in this inspection that halogeton germination may be occurring, however, due to the early timing of the growing season, and difficulty distinguishing young halogeton plants from other weedy species (e.g. Russian Thistle), a follow up inspection will need to be conducted when vegetation growth has progressed to allow accurate identification, and to determine compliance with 1004.e; As no resolution form and documentation has been submitted by Operator to indicate that the corrective action has been addressed, this corrective action will remain applicable until sufficient data is available to determine compliance with 1004.e</p>	trujilloam	05/01/2020
