SUNDRY NOTICE

Submit original plus one copy. This form is to be used for general, technical and environmental sundry information. For proposed or completed operations, describe in full on Technical Information Page (Page 2 of this form.) Identify well or other facility by API Number or by OGCC Facility ID. Operator shall send an informational copy of all sundry notices for wells located in High Density Areas to the Local Government Designee (Rule 603b.)

1. OGCC Operator Number: 100264	API Number:
2. Name of Operator: XTO Energy Inc.	OGCC Facility ID #
3. Well/Facility Name: Apache Canyon	Well/Facility Number:
4. Location (QtrQtr, Sec, Twp, Rng, Meridian):	

This form is to be completed whenever a Sundry Notice is submitted requiring detailed report of work to be performed or completed. This form shall be transmitted within 30 days of work completed as a "subsequent" report and must accompany Form 4, page 1

5. DESCRIBE PROPOSED OR COMPLETED OPERATIONS

XTO proposes to operate a gas gathering system (Apache Canyon) with a central compressor station (Station #1), satellite compressor stations and wellhead compressors to pull approximately 7 psi of vacuum at the wells. Attached is a table of the wells on the Apache Canyon Gathering System and a map showing their locations. The table indicates which wells currently have wellhead compressors. XTO plans to continue installing wellhead compressors on the remaining wells. The map identifies the locations of the compressors and oxygen monitors. If oxygen levels exceed 10 ppm at the main XTO gas sales meter (downstream from Station #1), gas sales will be shutoff until the levels are returned to 10 ppm or less. Oxygen monitors throughout the sytem will be used to locate the source of the oxygen problem.
