Weld County, Colorado**

Dear Director Robbins,

Bayswater Exploration & Production, LLC (Bayswater) is planning to drill 12 horizontal wells on the West Eaton 2-A Pad as referenced above.

The surface locations of Bayswater's proposed wells have been staked outside of the Colorado Oil & Gas Conservation Commission (COGCC) Rule 318A.a. Greater Wattenberg Area Drilling Window and are being permitted as exception locations. Pursuant to COGCC Rule 318A.c., any new well is to be located within 50 feet of an existing well. The proposed surface locations are approximately 449' to 582' NE from the existing Anderson 11-2. These wells are being proposed as agreed upon surface hole locations in the Surface Use Agreement with the surface owner. Bayswater has obtained written permission from the surface owner by way of signed waiver.

Bayswater respectfully requests the COGCC to review the enclosed information and approve the requested exception location request and Applications for Permit to Drill for these wells.

Respectfully,

A handwritten signature in black ink, appearing to read 'Justin Garrett'. The signature is fluid and cursive, with a large initial 'J' and 'G'.

Justin Garrett  
Regulatory Analyst  
Agent for Bayswater Exploration & Production, LLC
