**General Comment:**

On 5/20/2020 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

- Unused equipment stored in the southern project area needs to be removed. Corrective action date is back-dated to original corrective action date. 8/16/2019
- 2019 FIR Resolution Form documents removal of barbed wire and debris. However an increase in the amount of material and equipment stored on the location was observed during this inspection, than what was observed in 2019.

See below, and attached photos for additional detail.

1003 f. Weeds Noxious weeds? \_\_\_\_\_

Comment Revegetation is progressing within the majority interim reclamation areas, however storage of materials and equipment is inhibiting desirable vegetation. Additional spot seeding may be needed after materials removed.
