Operator
Comment:

Beeman Oil has monitored the location for snow melt then mud through March and was able to remove the truck from the location on April 2, 2020.

I contacted Emily Waldron by phone and below email.

Hello Emily,

I wasn't able to file the FIR extension request for the vehicle stuck in the snow and ice for the Elk Springs Unit #3 location because it was past the seven day time limit. We visited the location several times to but the snow and ice prevented us from being able to remove the vehicle. Beeman Oil request an variance to the FIR to April 20, 2020 to allow the area to unfreeze and remove the vehicle. We anticipate to be able to remove the vehicle much sooner but depends on the upcoming weather conditions.

Joe Mazotti

Regulatory agent for Beeman Oil.

COGCC Decision:

COGCC
Representative:

3 CA# 135956

Corrective Action: Implement or modify BMPs for improved material handling and spill prevention.

Date: 01/20/2020

Response: CA COMPLETED

Date of Completion: 01/15/2020

Operator
Comment:

Beeman plans to no longer have any drums on location. In the event that it's necessary to have drums on location they will be bermed with a capacity of 110% of the total volume.
