Comment:

Previous inspection required Operator to conduct final reclamation of the access road.

Location has since been discussed with BLM: It has been noted that the access road has been left as a requirement of the Operator by the BLM. Therefore, corrective action to conduct reclamation on the access road is no longer applicable.

Final reclamation in process; Vegetative establishment on the Location appears to be progressing towards COGCC 1000 series. Continue to monitor and manage areas until Location receives a passing final reclamation inspection.
