Dear Director:

Please let this letter serve as a request for administrative approval of exception locations for the captioned oil and gas well(s).

Rule 318A.a. requires surface locations within a square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section (“400’ window”); or within a square with sides eight hundred (800) feet in length, the center of which is the center of any governmental quarter section (“800’ window”).

Rule 318A.c. requires a new surface location to be less than fifty (50) feet from an existing surface well location.

Verdad Resources proposes to drill the above referenced well(s) at a surface location outside a legal drilling window as defined by Rule 318A.a. and at a surface location closer than fifty (50) feet from an existing well as defined by Rule 318A.c.

Thank you for your assistance in this matter. If you have any questions or comments, please contact me at 720-845-6917.

Sincerely,

Allison Schieber
