**COGCC Comments**

Comment	User	Date
<p>COGCC Inspection Report Summary</p> <p><b>**Weather Conditions:</b> cloudy, dry ground</p> <p>On Thursday, May 28, 2020 at approximately 11:00, I, Inspector Brittani Santistevan, conducted an on-site inspection at Wiest J 28-25 (Noble Energy), at location #: 310391 in WELD COUNTY Colorado.</p> <p>While there, I observed a shut in wellhead.</p> <p>During this inspection the following possible compliance issues were observed:</p> <p>1. According to production records, wellhead has been shut in since OCTOBER 2016. No current documentation of MIT in well file. Noble has a variance for long term shut-in/temporarily abandon wells and this well (Wiest J 28-25) is not on the list. Perform successful mechanical integrity test. If a successful MIT can not be performed within 30 day CA time the well must be plugged within 3 months per Rule 326 and 208. (Corrective Action Date: June 28, 2020) See attached photo #2.</p> <p>A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.</p> <p>This is a summary of inspection report.</p>	santistb	05/28/2020
