7 CA# 139436

Corrective Action: Comply with Rule 603.f

Date: 06/15/2020

Response: CA COMPLETED

Date of Completion: 06/09/2020

Operator Comment: All equipment and debris was cleaned up from the location. Down timber was moved out of ditch, but USFS prefers timber stays on site. Timber will act as an additional control measure to minimize site runoff.

COGCC Decision:

COGCC  
Representative:

8 CA# 139437

Corrective Action: Install or repair sufficient / effective BMPs in accordance with, and monitoring per Good Engineering Practices per Rule 1002.f.

Date: 07/01/2020

Response: CA COMPLETED

Date of Completion: 06/12/2020

Operator Comment: BMPs have been replaced on site and require continuous maintenance due to animals (livestock and wildlife). A third party has been hired to do weekly stormwater inspections in compliance with RMNG's stormwater permit and all issues will be noted and conveyed to the general contractor. All insufficient or ineffective BMPs will be replaced as the project continues.

#### OPERATOR COMMENT AND SUBMITTAL

Comment: All of the issues identified in COGCC's report have been addressed by RMNG and general contractor on Well Pad 9. The pad also has an existing stormwater permit through CDPHE and the required weekly inspections have begun for the year. RMNG expects regular disturbance to wattles and other BMPs because of wildlife and livestock, but will continue to maintain BMPs throughout construction until the site can be restabilized.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
