

**Pre-Abandonment Notification for Off-Location Flowlines**  
**Le Platt 1 to CR 506 Pipeline Abandonment**  
**(Dry Creek North Lateral Produced Water Lines)**  
Submitted 04/03/2020

See the attached map "6" FG Water Pipeline Abandonment" dated 4/2/2020 for proposed abandonment flowline details corresponding with the exception rationale below.

Note: all drainages shown on the attached map are obtained from the National Hydrography Dataset (NHD) from the United States Geological Society (USGS).

**SEGMENT DETAILS**

**Segment A to B:** approximately 140 ft. 6-in off location fiberglass flowline (produced water)

Type of Abandonment: Abandonment in place of the labeled off location flowline section is planned.

Flowline System: Central Water 471426

Jurisdiction1 (County): La Plata County

Anticipated Date of Abandonment: 04/22/2020

Requested date of abandonment is less than 30 days since this is part of an active construction pipeline realignment project.

Only part of the system will be abandoned. The remainder of the system will remain in active status.

Abandonment in place is proposed for the labeled off location flowline pursuant to the following:

- This segment is located in a recorded right of way [1105.d.(2) C].
- This segment crosses a utility corridor [1105.d.(2) F].

Comments: To remove the pipelines would require open cutting a paved landowner driveway.
