General Comment:

On 6/19/2020 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

Netting debris identified during 2017 reclamation inspection was not observed.

-Erosion controls and revegetation need to be installed to stabilize erosion on the northern cut-slope.

See below, and attached photos for additional detail.

Comment: Bare soils on the northern cut-slope are eroding and need additional stabilization/revegetation.						Date: 07/31/2020
Corrective Action: Erosion controls and revegetation need to be installed to stabilize erosion on the northern cut-slope. Erosion controls need to be maintained in place until soils are stabilized with desirable perennial vegetation.						
Pits: <input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT
