

## Proposed Pre-abandonment Notice Layout

Aristocrat Angus 12-3 (FFID: 473095): Remove riser down to the depth of the flowline. This will then be plugged and capped at the Tee. Flowline will remain in service for the Aristocrat Angus 12-3 Flowline.

Aristocrat Angus 4-0-3 (FFID: 473100): Flowline will be temporarily abandoned in place. Flowline shares a trench and is in close proximity to two active flowlines. Upon the abandonment of currently active wells, all flowlines (including the Aristocrat Angus 4-0-3) will be removed.

Note: Flowline depiction is not representative of actual route.
