#### COMMENTS:

Preston 42-18 is located on a sod farm, we need to work with the owners to do an M.I.T. Their season started about 3 weeks late because of the last snow storm/freeze this year. They run sprinklers around the clock makes for a muddy mess to get into. We are asking for an extension to October which is 3 months later than the due date. Smith Oil's Andrews 23-18 will have to have an M.I.T. in January 2021 because of idle well status. We could do them at the same time-Preston 3 months later Andrews 3 months early.
