<p>COGCC Inspection Report Summary On Wednesday June 24, 2020 at approximately 9:57Am, I, Inspector Chane Finkenbinder, Conducted an on-site inspection at Randall 41-10 tank Battery Painted Pegasus Petroleum at API #001-06177 in Adams County Colorado. While there, I observed a Temporarily Abandoned Well, During this inspection the following possible compliance issues were observed: Mechanical Conditions (Condensate tank leaking), inspect at regular intervals and maintain in good mechanical condition per Rule 605.d. 30 days unless leak is found. Immediate call to operator if leak is found and 24 hours (6/25/2020) to fix the leak or isolate leak. See attached photos #. 2 & 3. Building(s) in disrepair. Inspect at regular intervals and maintain in good mechanical condition per Rule 605.d. Corrective Action Date 7/27/2020See attached photos #.5 through 9. Weeds. Location is within a designated setback location, remove Weeds per Rule 603 f. Corrective Action Date 7/10/2020. See attached photos #.3 through 10 I left a message with Troy Mouret with Painted Pegasus Petroleum explaining that there is an active leak at this location (API # 001-06177) on a condensate tank and I have herd nothing back from Troy or any one regarding the situation. A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.</p>	finkenbc	06/24/2020
