COGCC Comments

Comment	User	Date
<p>On June 30, 2020 COGCC Environmental Supervisor Alex Fischer conducted an environmental field inspection of the Pintail Tank Battery Spill/Release Point ID #477094. David Boyer and Wes from SandRidge were on site during this inspection. Weather was partially sunny and windy and temperatures about 50 degrees Fahrenheit.</p> <p>The following is a summary:</p> <p>Spill/Release occurred near the bottom of the 400 bbl produced water tank T-1603</p> <p>Salt staining was observed throughout the floor of the secondary containment and approximately 1-2 inches high on the liner.</p> <p>The tank was LOTO.</p> <p>Concrete supports/anchor/weights placed directly on secondary containment liner are deteriorating with exposed rebar.</p> <p>Metal sheeting pieces, bull plug, rebar, and other debris were located directly on the secondary containment liner.</p> <p>Folds in the liner were observed throughout the secondary containment.</p> <p>In places strong winds would blow beneath the liner.</p> <p>There was no evidence of fluids on the outside of the secondary containment.</p>	fischera	07/02/2020
