<p>COGCC Inspection Report Summary                      On Monday 7/6/2020 at approximately 1010 hrs. I, Inspector Robbie Revas,                      Conducted an on-site inspection at a Kerr McGee location:</p> <p style="text-align: center;">Firestone V 20-3 at API #05-123-                      26463 in Weld County Colorado.</p> <p>While there, I observed a multi well pad and tank battery.                      During this inspection the following possible compliance issues were observed:                      Cards inside meter houses indicate that calibration is not current, a CA date was applied on                      FIR Doc # 699302070.                      See attached photos.                      Location is dry, weather is clear.                      No follow up on this site inspection needs to be conducted to ensure the                      Compliance issues have been corrected to comply with COGCC rules.                      Continuing education COGCC Inspection Report Summary.                      This is a summary of inspection report.</p>	revasr	07/06/2020
