General Comment:**COGCC Inspection Report Summary**

On Wednesday 7/1/20 at approximately 11:00 hours I, Inspector Corey De Paolo, Conducted an on-site inspection at PUCKETT LAND COMPANY CATHEDRAL CREEK 67S97W /11NWNE, Location #322527 in Garfield County Colorado.

During this inspection the following possible compliance issues were observed: Workover rig attempted to load the hole with 107 bbls of water on top of the cast iron bridge plug landed at 6,790 ft. The well never loaded and took upwards of 200 bbls. Unable to perform MIT with a corrective action date of 10/1/20.

The following day on July 2nd Eric Stearns with Puckett Land Company informed me that they had located the leak in the casing at 2391 to 2424 feet and were deciding whether to fix the leak and retest or work on plugging and abandoning the well.

This is a summary of inspection report.
