**General Comment:**

spill 452769 was closed based on assumed actions to be undertaken in site investigation and remediation project 10805. Data has been submitted indicating soils remaining at site meet Table 910-1 thresholds.

No request for closure of the site investigation and remediation project 10805 was ever received.

The site has changed operators but either can submit a supplemental eForm 27 with Remediation Completion Report check box requesting closure of project.

other operations at site not inspected in this report.

appeared operations were shut in at time of inspection
