General Comment:

On 7/17/2020, Reclamation Specialist Trujillo conducted an interim reclamation and stormwater inspection for TEP's Chevron Chevron-65S97W 24NWNE Location in Garfield County, Colorado.

The following compliance issues were observed during this inspection:
1004: Final reclamation

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

Well and Location status "Abandoned". Records and historic aerial imagery shows location was constructed.

Inspection #663902221 observed that the Location did not meet 1004 final reclamation requirements. Inspection required Operator to conduct final reclamation by 11/02/2013.

It was observed in this inspection that the location remains out of compliance with 1004 final reclamation requirements; Soil stockpile evident within central area of the Location. Large areas of the Location remain bare soils.

Corrective Action:

Comply with 1004 rules and conduct final reclamation including, but not limited to, recontouring/regrading location and revegetation activities; Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local soil conservation district. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.

To allow for more favorable seeding window outside of drier summer conditions, a longer CA date of 11/1/2020 is being provided

Date **11/01/2020**

Overall Final Reclamation
