**General Comment:**

This is a reclamation inspection of the RHOADES 11-11 #2 well site which was plugged and abandoned on 5/13/2009.  
 The location is not in compliance with the Final Reclamation requirements.  
 Previous corrective actions have not been performed.  
 See attached photos and additional details within this report.

Comment: The location is mostly bare of vegetation and does not appear to have been reclaimed. The soils at the location are compacted. Previous corrective action does not appear to have been performed. Corrective action should be performed Immediately. Seeding of the disturbed soils should be performed in the fall season.

Corrective Action: Comply with 1004 Rules Date **05/05/2017**

**COGCC Comments**

Comment	User	Date
All disturbed areas must be recontoured, properly decompacted by cross ripping to a depth of 18 inches, have an adequate seedbed prepared, and then seeded with a seed mixture that reflects the surrounding vegetation. Erosion controls must be implemented that stabilizes the seeded soil. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Continue to monitor and manage this site until Final Reclamation has Passed.	CostaR	07/20/2020
