The Form 2A for this Oil & Gas Location was reviewed for all eight wells proposed for this Location. COGCC's technical review of the 2A and all eight APDs included review within the context of SB 19-181 and the required Objective Criteria. Objective Criteria Review Memo, Doc# 2479260, is in the Location's file in COGCC's database. This Addendum provides additional information regarding the delayed approvals of the eight APDs permitted at this Location.

Delayed Approval of APDS:

The Form 2A was approved on 6/8/2020. These eight APDs did not pass Completeness until 6/25/2020.

The Objective Criteria Review Memo for this location (Doc# 2479260) identified that this location met Criteria #5c for distance to surface water features & Criteria #8 for the location planned for more than 18 tanks. The Objective Criteria Review Memo identified BMPs on the Form 2A that should successfully mitigate against the impacts identified by meeting Criteria #5c & #8, including: stormwater management controls, lined containment for tanks and separators, liner under drilling rig, remote monitoring/shut-in capabilities, and leak inspections. Based on the existing BMPs, there is no further action needed beyond what was identified in the on-file Objective Criteria Review Memo.

Based on this analysis, the Operator is complying with the existing BMP's and COA's on the approved Form 2A to address the Objective Criteria that were met during the original review of the Form 2A and no further Sundry or Memo is necessary at this time. The APD's IN PROCESS should be passed and sent to Final Approval with the following comment:
