RE: Request for Consent to Plug Wells

Mr. and Mrs. Schulte,

Bison Oil & Gas II, LLC ("Bison") currently has permits (pending or approved) to drill wells from one of the pad locations that Bison secured from you in Township 8 North, Range 60 West, Section 23. In order to drill these permits, it is necessary and required by the COGCC to plug old abandoned oil and gas wells within a certain proximity of the new wells that are to be drilled. There are two unmarked abandoned wells within the proximity threshold that need plugging on your lands; specifically, the Brungard 1 (API 05-123-05542), located in the SW/4NE/4 and Carlson 1-23 (API 05-123-22302), located in the NE/4NE/4 both of Section 23.

Bison respectfully requests your surface owner's consent to plug the Brungard 1 and Carlson 1-23 wells located on the above described lands that you own. Please indicate your agreement and consent via signature below to Bison's plugging of the Brungard 1 and Carlson 1-23 wells using the enclosed envelope at your earliest convenience.

Additionally, Bison Oil & Gas II, LLC has been advised and acknowledges the subject wells and adjacent property is under contract with the United States Department of Agriculture (USDA) in the Conservation Reserve Program (CRP) and all reclamation will be completed by Bison Oil & Gas II, LLC in accordance with the terms of the CRP contract

Thank you for your immediate attention to this matter and should you have any questions, please do not hesitate to reach me at the undersigned.

Regards,

**Troy Smith**
