COMMENTS:

Citation Oil & Gas Corp. requests approval to retain this well in a temporarily abandoned status. The well was originally abandoned due to low production. There is a CIBP set at 5138' with 2 sxs cement on top isolating the Morrow perms at 5188'-5208'. The well is closed off to the atmosphere by valves and plugs in the tubing and casing. We are currently evaluating the well to return it to production pending a rise in oil prices.
