**General Comment:**

This is a Reclamation Insp; conducted with, Environmental Staff, Steven Arauza.  
Insp was prompted by referral from Environmental staff Re: Remediation work plan/ Closure and Final Reclamation of Land Farm.  
Inspection will document site conditions in anticipation of Operator submittal of Final Reclamation Variance Request. Operator is encouraged to expedite Submittal of Request; to know of Approval or Denial of Variance before implementing FR plans within timeline allowed per COGCC 10004 rules. Operator encouraged to refer to Reclamation Variances & Waivers Guideline Document at COGCC website.

VEGETATIVE COVER \_\_\_\_\_

Comment:

Remediation work is in Process. Excavators/ heavy equipment at work at time of Inspection. Clean fill was being back hauled in and stockpiled as contaminated material was hauled out. Site is narrow, tucked in along cut, North of curve switchback of lease road. It appears that all space was utilized as Land Farm with little area for Interim or revegetation efforts. There is noxious weed establishment(Canada thistle/Houndstongue) on North & East perimeters of Location. Operator indicated Weed Contractor was unable to access Location because of ongoing work at congested site. Cut slope will need to be moderated and vegetated, whatever Final Rec Plan is implemented. Refer to Photo Log attached.

Corrective Action:

**Control Noxious Weeds ASAP.**Date **09/03/2020**

Overall Final Reclamation
