Comment

There were noxious weeds along the access road and location which were wilted from weed control operations. However, there were many noxious weeds which were not controlled. It appears the thistle was controlled but other noxious weeds were not controlled. Additional weed control will need to be performed.

COGCC Comments

Comment	User	Date
It appeared that some noxious weeds such as Hounds tongue and Common mullein were not controlled along roadways and locations. These are noxious weeds which will need to be controlled. Additional noxious weeds have likely grown since the last weed control was performed. A fall weed control was advised in the Wapiti weed control plan.	CostaR	08/20/2020
