CORRECTIVE ACTIONS:

1 CA# 141479

Corrective Action: Production facilities, shall be kept free of equipment and supplies not necessary for use on that lease.

Date: 11/25/2020

Response: FACTUAL REVIEW REQUEST

Basis for Review: CA dates are not per the guidelines

Operator Comment: The unused equipment are weights for the pump jack. SG needs these weights for use of the pump jack, removing them would be extremely burdensome as they are necessary for operation of the pump jack. SG requests to continue to store these weights near the pump jack as we always have done.

COGCC Decision: _____

COGCC
Representative:

2 CA# 141480

Corrective Action: Production facilities, shall be kept free of weeds and debris.

Date: 09/08/2020

Response: FACTUAL REVIEW REQUEST

Basis for Review: Action requested was already completed prior to the inspection

Operator
Comment: This location was treated for weeds on 7/15/20. SG has invoices to prove and will submit to COGCC upon request. Please note SG does not understand the term "debris" used in the field inspection report. Please also note the grass in the diversion ditch is not being considered a weed by SG - this is a brome species and was intentionally planted to aid in stabilizing the stormwater ditch. In addition, the inspection note stating "production facilities, shall be kept free of weeds and debris" needs to be clarified. Several inspectors are inconsistent with this requirement and SG is unsure how to comply with it. However, as stated, SG sprayed weeds on the location on 7/15/20 per our Weed Mgt. Plan.

OPERATOR COMMENT AND SUBMITTAL

Comment: SG made several unsuccessful attempts to contact COGCC staff. Therefore, this FIR explains where SG needs some clarification from the Field Inspection Report, where items have been addressed, and a request to leave essential equipment.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
