General Comment:

On 8/25/2020 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Weeds need to be controlled by 10/15/2020. Recommend spot-spraying, as weeds are interspersed throughout desirable vegetation.

-Location is approaching reclamation standards.

See below, and attached photos for additional detail.

Comment: Approximately 200 to 300 Russian knapweeds observed within the northern project area.

Other than the Russian knapweeds infestation, revegetation is progressing throughout the reclamation areas, and approaching reclamation standards.

Corrective Action:

Date **10/15/2020**

Control weeds. Inspector recommends careful spot-spraying to avoid damage to desirable vegetation that is established within the project area.
