<p>COGCC Inspection Report Summary On Monday 8/31/2020 at approximately 1030 hrs. I, Inspector Robbie Revas, Conducted an on-site inspection at a KP Kauffman location:</p> <p style="text-align: center;">Energy Minerals A #1 at API #05-123-10148 in Weld County Colorado.</p> <p>While there, I observed a wellsite. During this inspection the following possible compliance issue was observed and addressed: 605.d Mechanical Issue: Well leaking between tubing and sucker rod, Lease operator arrived at location and tightened packing during inspection and stopped leak no CA necessary. See attached photos and videos. Location is dry, weather is clear. I spoke with Manny Silva with KP Kauffman @ 1015 hrs. I let him know that I found a leak during my inspection, he sent a lease operator out to location before I was finished and took care of the compliance issue. No follow up on this site inspection needs to be conducted to ensure the Compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.</p>	revasr	08/31/2020
