TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment:

This location does not comply with Rule 1004, as the access road has not been reclaimed. Reclamation rules require reclamation activities to be conducted within three months of plugging on cropland. Well was plugged 07/27/2018.

Portions of the northern access road appear to be utilized to access two different solar farms and the surface owner appears to be using the well location for hay storage.

Final reclamation activities have been performed at the associated offsite tank battery, as reference area species, crested wheatgrass, were observed. Recent weed management of Kochia/Russian thistle appears to have been recently performed.

Corrective Action: **Comply with Rule 1004 or submit a final reclamation variance request.**

Date **11/16/2020**

Overall Final Reclamation **Fail**

Well Release on Active Location ☐

Multi-Well Location ☐

Storm Water:
