General Comments

<u>User Group</u>	<u>Comment</u>	<u>Comment Date</u>
Environmental	A review of information available on COGIS maps indicates that there is not a water feature that meets the 100 series definition of a water source within any quarter section in 1/2 mile of the oil/gas well(s) that was not properly addressed by the operator.	09/01/2020
Environmental	Returned to Draft for additional information. Knight 17 Sundry Notice related to Rule 318A.f Document # 402477584 The Sundry Notice referenced above has been returned to draft for additional information. The area that was used to search for water wells was not correct for 318A.f. 318A.f requires that the search area include all quarter sections that the 1/2 mile radius contacts. Based on a review of the COGCC map there are an additional seven water wells that need to be accounted for in the Sundry prior to COGCC approval. Please resubmit the Sundry Notice once the additional information for the seven water wells can be provided. Please let me know if you have any questions.	08/31/2020
