214432	WELL	PA	11/27/2017	OW	067-06033	J C K (OWP) 3	PA

General Comment:

This well was part of a larger OWP Project that was supposed to include re-entry and replugging of this well. Once on site, it was apparent the water in and around the cellar of this already PA well was generated from a stock pond upgrade of this well per Cottonwood Consulting's conductivity investigation report. Further investigation is necessary as to the need of the potential re-entry and replugging of this well.
