**General Comment:**

On 9/14/2020, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at Berry Petroleum's Chevron D05 696 location in Garfield County, Colorado.

This inspection is to document compliance for the following corrective actions from Inspection #696201150, and #69240231:  
1004.e: Weed Management

The following compliance issues were observed during this inspection:  
1004.e: Noxious weeds remain evident on Location.

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

Previous inspections observed Noxious weeds (Musk thistle, Houndstongue, Mullein) have established on the Location. Inspections required Operator to comply with Rule 1004.e, and to conduct ongoing weed monitoring/management efforts.

It was observed in this inspection that initial weed management efforts appear to have been conducted. However, additional thistle and houndstongue rosettes were observed on the Location and access road; plants likely germinated after initial weed management efforts.

Inspection #692402317 required that if further weed treatment or activities are indicated by monitoring review, complete such activities by 11/15/20; This corrective action remains applicable.

Corrective Action:

Comply with Rule 1004.e and conduct noxious weed management and monitoring to prevent further noxious weed establishment. Management efforts will need to be ongoing until final reclamation has passed.

Date **11/15/2020**
