(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Date of work November 6, 1977

Well was spudded on November 1, 1977. After setting surface casing, well was drilled to total depth of 5017' and electric logs run. One drill stem test was run to evaluate "D" Sand shows. Results were negative, so well was plugged and abandoned as follows:

A 20 sack cement plug was set from 80' to 120';
a 10 sack cement plug was set from top of surface to 30'.

Hole was filled with heavy mud.
