Reclamation Specialist	<p>Variance Approved per the following: Mon, July 23, 3:58 PM</p> <p>Dear Mr. Leonard:</p> <p>COGCC Staff has conducted a detailed assessment of the below surface owner final reclamation variances per the 1001.c rule and have found that the requests are sufficient and recommends approval. Staff finds that, in their current form, they are protective of public health, safety, welfare, and the environment, with the below conditions of approvals. Below is a summary of Two locations for which Caerus is requesting a 1001.c variance.</p> <p>HR Milholland Loc#312351 Plugged and Abandoned 7/14/17 Doc#401695005: Requesting a variance of select requirements of rule 1004.a & 1004.d regarding access road and Location. Conditions of Approval:</p> <p>COA #1 - All corrective actions identified on a field inspection report must be performed by the corrective action date as a condition of approval for this variance until final reclamation is passed.</p> <p>COA #2 - Continue to monitor and manage the site for erosion, weed control & establishment of vegetation until final reclamation is passed.</p> <p>COA #3 - Establish 80% vegetation cover of reference area levels, except on the access road and graveled areas of location.</p> <p>COA #4 – Approval of the variance request does not absolve the Operator from enforcement due to past non-compliance with the rules or future non-compliance with the COAs.</p> <p>Staff believes there is no further action required by Upper Management unless you would like additional information or any action to occur on staff's part. Please let us know if you would like Staff to set up additional communications with you on these variances within five days. If there is no communication from you Staff will finalize the variances.</p> <p>Sincerely, Denise T. Arthur Ph.D.</p>	09/15/2020
