General Comment:

On 9/14/2020, Reclamation Specialist Trujillo conducted an interim reclamation and stormwater inspection on Berry Petroleum's Chevron I31 596 location in Garfield County, Colorado.

This inspection is a followup to #696201526 to document compliance with the following corrective action:
1003.f: Noxious weed management.

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment

FIR #696201526 documented that noxious weeds (Bull thistle, Cirsium vulgare) have established in the northern interim areas of the Location. Inspection required Operator comply with Rule 1003.f.

It was observed in this inspection that weed management has not been conducted, or was insufficient and not "ongoing" per the corrective actions; Noxious weeds observed on the interim areas of the Location (Bull thistle, Musk thistle) have been allowed to reach maturity; seed dispersal via wind was occurring at time of inspection; seeds observed being transported off-location.

Operator failed to conduct sufficient ongoing weed monitoring and management to prevent the establishment and spread of noxious weeds, pursuant to Rule 1003.f.

Corrective Action

Original corrective action and date remains applicable:

Comply with Rule 1003.f and conduct weed management; Ongoing weed management required until Location receives a passing final reclamation inspection.

Date **08/04/2020**
