CORRECTIVE ACTIONS:

1 ☒ CA# 140325

Corrective Action: -Corrective action to provide information regarding unused equipment is only partially addressed. Operator submitted documentation that shows ownership of risers and cans surrounding the project area. Any risers or cans associated with this plugged well (not in use), need to be removed. If they are owned by another operator, then Catamount needs to work with that operator to ensure proper removal of unused equipment that supported the well that is now plugged. Risers or cans that support the producing wells north of the plugged well location do not require additional action at this time. Corrective action date remains 8/19/2019.

Date: 08/19/2019

Response: CA COMPLETED Date of Completion: 08/06/2019

All risers and cans associated with the plugged well (Olson Smith Unit 1) were removed on 8/6/2019. The

Operator
Comment: remaining risers and cans are in use by adjacent wells.

COGCC Decision: Approved pending re-inspection
