General Comment:

This is a follow up inspection to document status of spill cleanup and final reclamation. At the time of this inspection Operator has made no attempt to clean up historic spill or conduct surface reclamation of well pad. Original Corrective Action date of 2/28/2019 remains in effect. Operator is advised that COGCC Corrective Action dates are as enforceable as COGCC rules. Failure to comply with Corrective Actions will result in financial penalty. Operator should immediately begin remediation of spill.

On 8/28/2019, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at PO&G Operations Lowe B-2 location, and the Petx-Lowe 1-A facility location in Kit Carson County, Colorado. This inspection was in response to Sundry #402122863 submitted by PO&G stating Final reclamation complete, site ready for inspection in accordance with 1004.c. Reclamation inspector issued 4 Corrective Actions that have yet to be resolved. Operator should refer to inspection 696200704 and complete the required Corrective Actions.

On 12/12/2019 Environmental Protection Specialist (EPS) Kosola conducted a follow up inspection to document status of spill clean up in COGCC inspection 700600037. EPS requested that operator submit results from spill investigation on inspection and called operator to discuss. No response was received.

On 9/14/2020 EPS Kosola contacted PO&G via email and again requested that the operator submit the results from spill investigation. Operator submitted Form 19 Supplemental documenting that a spill investigation was conducted and found contaminated soil. Operator then requested closure of spill but no clean up of spill was conducted. Form 19 was then sent back to DRAFT.

Operator shall submit Form 19 Supplemental documenting spill investigation. If contamination was discovered and a clean up is required then operator shall submit a Form 27 Remediation Plan to Area EPS Kosola documenting plan to clean up.

After completion of remediation operator shall conduct final reclamation of well pad as described in COGCC inspection 696200704
