Comment:	<p>Inspection in response to complaint.  Field Inspector Assigned: Tom Beardslee  Complaint Received  Date: 9-23-2020  Complaint Contacted: John LaRosa  Date: 9-24-2020 Time: 4:44PM via phone.  Location ID #311905  Location name: Vallejo 44-5V/R  Inspection Document # 695103361  Complaint Document # 200449195  Nature of Complaint: noise  Field Inspector Actions:  On 9-23-2020, I Tom Beardslee area field inspector was assigned a complaint received by COGCC staff in reference to noise. The complainant (John LaRosa 13121 Northridge Road, Weston, Colorado 81091) stated the issues were occurring outside of complainants home.  On 9-24-2020, I contacted the complainant who indicated that he experience loud noise on the night he filed the complaint (9-23-20) but it was quit at the time I spoke with him. He states that the noise comes from the Vallejo 44-5 V/R location.  I performed a complete site inspection of the oil and gas location on 9-28-20. At time of inspection, sound study of location indicated an average of 39.88 db.  At time of inspection, I spoke with (Company) production superintendent he stated at time of complaint the wells where producing and no unusual activity was taking place. I attempted to take a C scale sound study at complainant's home but they were not home. I spoke with Mr. Larosa at his home on 9-30-20 but the wind was to strong to take a study at that time. I returned to Mr. Larosa's house on 10-1-20 and conducted a C scale sound study and the average db was 46.4. I then traveled back to the Vellajo 44-5 V&amp;R and conducted another A scale sound study due to one of the engine skid house doors had been closed almost all the way and the average calculated db was 40.98.  Weather conditions: sunny and calm  See inspection document #695103361 for my inspection.  No violation of COGCC rules observed at the time of the inspection.  All information reviewed and site inspection information submitted to the COGCC for further review.</p>
